We recommend using medium strength thread glue during assembly.

Left and right side – bottom mounting :

The assembly of the left and right sides is the same.
First install the steel adapters and then you can install
the crash frames. For assembly use: steel adapters
ID.1 + bolts M10x75x1.25mm ID.2 + nuts
M10x1.25mm ID.3 + bolts M8x20mm ID.4 +
washers M8 ID.5

Installation of crash frames under the light:
